To help spur sales, Boeing sent a 727 on a 76,000-mile tour of 26 countries. Originally, Boeing planned to build 250 of the planes. However, they proved so popular (especially after the larger 727-200 model, which carried up to 189 passengers, was introduced in 1967) that a total of 1,832 were produced at the Renton, Wash., plant.

Aurora produced several airliner kits during its operations including the 1/72 737-100, 1/72 DC-9-10, and this 1/96 727-100. While it is a shame that this kit didn't share the same 1/72 scale as the other two kits, this was produced back in the days of 'box scale' where kits were sized to fit within standardized retail boxes.
