GIS 9 You can use ArcGIS in different ways, depending on the complexity of your needs. Some people use ArcGIS primarily as a single-user mapping and analysis tool, usually in the context of a well-defined, finite project. This common use of ArcGIS is sometimes called project GIS. Other people use ArcGIS in

ESRI ArcMap 10.1 Manual MGEO 2014 5 4 Creating a Study Area
A study area outlines the area that the user will be analyzing. Having a study area allows the user to use tools (i.e. a buffer) on just a specific area; this will save time as the tools do not need to be run on superfluous data.
