simply a matter of convention. If this is so, logic and convention

Language, Proof and Logic

A proof checker helps us verify that we are using sentences and following the rules. If we choose $\sim B \vee (\sim C \vee D)$ as the sentence, we can get a proof like the following. This proof shows a way to handle the cases in both of the premises by formally eliminating the "V" connective through subproofs. Consider the two cases in the first premise.

proof - Fitch Formal Logic Help 6.26 - Philosophy Stack ...

Note that the our proof contained proofs by cases embedded within a proof by cases. The structure of this would have been much easier to follow if we had uses a formal proof! 4. Construct formal proofs for the following arguments. (a) (Ex 6.4) 1 $(A \wedge B) \supset C$ 2 $C \supset B$ Proof: 1 $(A \wedge B) \supset C$ 2 $(A \wedge B)$ 3 $B \wedge$ Elim: 2 4 $C \supset B$ _Intro: 3 5 C 6 $C \supset B$ _Intro: 5 7 $C \supset B$...
