make(1) - Linux man page

2.2 A Simple Makefile. Here is a straightforward makefile that describes the way an executable file called edit depends on eight object files which, in turn, depend on eight C source and three header files.. In this example, all the C files include defs.h, but only those defining editing commands include command.h, and only low level files that change the editor buffer include buffer.h.

Simple Makefile (GNU make)

This edition of the GNU Make Manual, last updated 04 April 2000, documents GNU makeVersion 3.79. This manual describes makeand contains the following chapters: Overview of make. How to Read This Manual. Problems and Bugs.

GNU make - Table of Contents

A variable is a name defined in a makefile to represent a string of text, called the variable's value. These values are substituted by explicit request into targets, prerequisites, commands, and other parts of the makefile. (In some other versions of make, variables are called macros.)

GNU make - How to Use Variables

These are manuals for the latest full releases. GCC 10.2 manuals: GCC 10.2 Manual (also in PDF or PostScript or an HTML tarball) GCC 10.2 GNU Fortran Manual (also in PDF or PostScript or an HTML tarball) GCC 10.2 CPP Manual (also in PDF or PostScript or an HTML tarball)

The full documentation for mkdir is maintained as a Texinfo manual. If the info and mkdir programs are properly installed at your site, the command `info coreutils aqmkdir invocationaq.` should give you access to the complete manual. Referenced By `cpuset(7)`, `jk_init(8)`, `libarchive-formats(5)`, `librrd(3)`, `mkdirhier(1)`, `rfmkdir(1)`

mkdir(1): make directories - Linux man page

The GNU Make manual, written by the program's original authors, is the definitive tutorial. It also includes an introductory chapter for novice users. The Make utility automates the process of compilation; it is especially useful when the source files of large programs change. It is a small program with a lot of power.

GNU Make Reference Manual: Stallman, Richard M ...

Unconditional makefile text follows. As this example illustrates, conditionals work at the textual level: the lines of the conditional are treated as part of the makefile, or ignored, according to the condition. This is why the larger syntactic units of the makefile, such as rules, may cross the beginning or the end of the conditional.

GNU make - Conditional Parts of Makefiles

This "Makefile and GNU make on Linux and Unix" tutorial explains all the features provided by the GNU make utility. The course explains how to create the Makefile, how to run the Makefile, rules, phony target and various activity of building project in Makefile by using the features provided by GNU make.

Makefile and GNU make for C / C++ Projects on Linux ...

Gnu Make Manual Software GNU make test framework v.0.1 munit is a small test framework for GNU makefiles, inspired by the JUnit project. Since GNU make 3.80, makefiles can become very complex (recursive functions, dynamic contents via `eval ()` etc.). munit has been developed to make it easy to test...
