Okay, tools and a juicy brain-to-body ratio. Some say that we control our fate too with those same tools, but I have my doubts about that. Regardless of what you're thinking about your fate or the lack thereof, tools are pretty cool to have, especially in a survival situation. But then again, tools aren't necessarily defined by what you can ...

The mass of the tool itself, along with gravity, are two main elements that make jackhammers work because they help weigh down the machine and keep it in contact with the target. As the bit impacts the rock at between 1,000 and 4,500 hits per minute, it immediately stresses the surface and causes the formation of irregular fragments.
