The Rover V8 engine is a compact V8 internal combustion engine with aluminium cylinder heads and cylinder block, originally designed by General Motors and later re-designed and produced by Rover in the United Kingdom. It has been used in a wide range of vehicles from Rover and other manufacturers since its British debut in 1967.

Rover V8 engine - Wikipedia

Today I checked the supply to my starter motor prior to removing it from the engine. I measured 12.5 V between terminal B (30) and an Earth point. This terminal has an unfused permanent connection with the battery, so having battery voltage at this point provides reassurance that my Rover's wiring is not at fault.

NEW* STARTER MOTOR - For LAND ROVER RANGE ROVER V8 petrol ...

With the Rover V8, it is never, 'how many miles they have done' but how they did them. This is a typical low mileage engine, it is not uncommon to see such contamination on a ten-year-old or older engine that has covered typically less than 50K miles and has had only factory specified interval oil changes, but please don't let this put you off,

RPi Engineering - V8 Engines

The Buick starter "hole" is about 1/8" Dia smaller than the Rover. Because I am exceedingly frugal, I did purchase a Rover Denso type starter from Rock Auto - NAD101490 at around \$120 delivered. Once I verified the dimensions, I disassembled the starter to get just the cast aluminum "nose" in hand.

BritishV8 Forum: Mini starters for Buick 215 and Rover V8

the starter was a replacement starter for Rover V8, a no brand item. Bosch starters were not available when I needed a new starter so I bought what there was. Sadly even name brand items fail too so you cannot really rely on "quality" items anymore. Art, Morris is running really nice, just needs more power :-)

BritishV8 Forum: Gear Reduction Starter

(same PCD) Land/Range Rover flywheels are drilled for 10" clutch covers and can be heavier because of their application. Looking at the starter from the front of the engine car starters have the solenoid in the 6 o'clock position, 4x4 starters have it in the 9 o'clock position.

...

Some time ago i bought a spare range rover 3.5 engine which had a high torque starter. I tried to fit on a spare P5B engine and the solenoid touched the exhaust manifold. It could be solved by grinding off a piece of the solenoid housing but i didn't like the idea of the solenoid being so close to the exhaust manifold.

HIGH TORQUE starter motor | Rover P5 Club Forum
