The Cyberiad is oddly reminiscent of Gulliver’s Travels, The Hitchhiker’s Guide to the Galaxy, The Phantom Tollbooth and Alice in Wonderland. Charming, mind-bending and anarchic, it is perhaps Lem’s greatest work. This edition includes all of Daniel Mroz’s hallucinatory original illustrations.

The Cyberiad isn’t one of those. A collection of mostly humorous (if more than slightly geeky) tales about the famous "constructors" Trurl and Klapaucius living in a robotic/cybernetic world. Despite the technological society, the setting is somewhat Medieval...kings, knights, pirates, the occasional dragon, even a few (robotic) princesses.
