The TS-590SG is an excellent value, high performance radio. Sometimes I regret selling my my TS-590, even though I own the new TS-890. It was that good. Solid feel, reliable service, a joy to operate. Excellent receiver with pleasant audio - not as harsh as my older radios, and very clear and intelligible.

Kenwood is known for making robust devices with great build quality but the TS-590SG seems to be one of their better products even by that standard. You would be surprised to know that the Texas Instruments processor Kenwood has installed in the TS-590SG is exactly what's used in the Icom-7600, which is priced about \$3,000.

Over all the Kenwood TS-590SG is a great radio, and the automatic beat cancel is a nice improvement over my other ham radios. The only negative I have found is the built in automatic antenna tuner is not as good as the automatic antenna tuner that came with the Kenwood TS-450sat and Kenwood TS-850sat.

excellence and innovation in KENWOOD transceivers. This transceiver features a Digital Signal Processing (DSP) unit to process IF and AF signals. By taking maximum advantage of DSP technology, the TS-590SG transceiver gives you enhanced interference reduction capabilities and improves the quality of audio. You will notice the differences when you

## **INSTRUCTION MANUAL**

The “TS-590 Family” started life in September 2010, with the introduction of the TS-590. Kenwood offered three power versions: the 100W version (TS-590S), intended for customers outside Japan. the 50W version (TS-590D) and the 10W version (TS-590V), for the Japanese domestic market.
